Electrical & Electronics Engineering

Report

“Two day work shop on outcome based education”

Organized by

Department of Electrical and Electronics Engineering

Date: 10th, 11th Sep-2019

Submitted by: S.Rajesh, Assistant Professor. Dept. of EEE

Resource Person: Mr.P.Narayana Prasad,

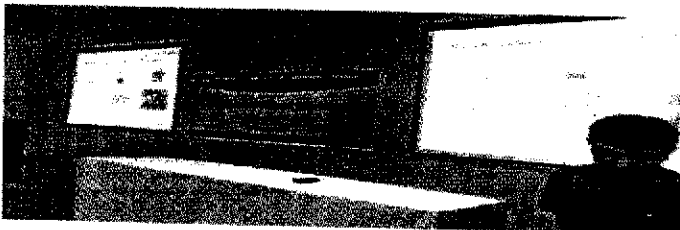

The session was started at 10 AM. The workshop was initiated by Mr.S.Rajesh, HOD-EEE Department. The resource person Mr.P.Narayana Prasad was introduced by Mr. D.Joseph, Assistant. Prof., Dept. of EEE.

The resource expert addressed the importance of Two day work shop on outcome based education and how Two day work shop on outcome based education is interrelated to future power demands. Automatic power factor controller (APFC) is used to decide the capacitor steps of the capacitor bank, such that the unity power factor is maintained at the grid connection. This resource person analyses the working of APFC in low voltage distribution system (LVDS) with high solar penetration. The condition is found when connected capacitors should be shed, and the coordination between APFC, solar inverter reactive power control and solar inverter active power curtailment are examined to manage the high voltage rise problem. The basic idea For Power factor correction of inductive circuits we have to connect a capacitor in parallel with the device which has a low power factor. One of the traditional methods for power factor correction is static type compensation in which static type capacitors are used for power factor correction. However, in this case, care should be taken when applying power factor correction star/delta type control so that the capacitors should not be subjected to rapid on-off conditions. Otherwise, back-to-back capacitor bank switching is usually associated with large inrush current and it may damage the equipment connected to the system.

Program Outcome:

PO4: The student was able to apply design and development of solutions in distribution systems.

PO5: The student was able to understand the usage of modern tools in power factor correction.

Report

**Half day Orientation Program for Newly Recruited Faculty
Organized by
D.N.R.College of Engineering & Technology**

Date: 20th Sept -2019

Submitted by: S.Rajesh, Assistant Professor. Dept. of EEE

Resource Person: Dr. K. CHANDRA SEKHAR,

The session was started at 10 AM. The half day orientation program was initiated by Mr.S.Rajesh, HOD-EEE Department.

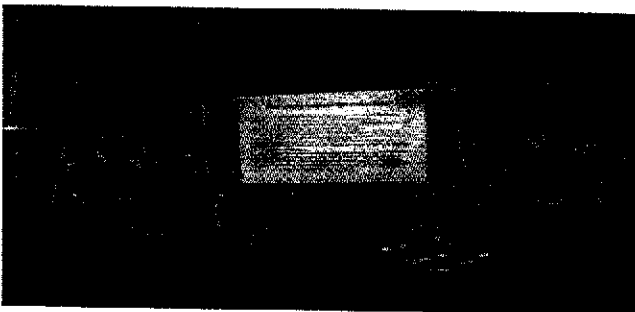

The resource person Mr.G.Rambabu was introduced by Mr. D.Joseph, Assistant. Prof.,

The resource expert addressed the importance of half day orientation program on newly recruited faculty and how half day orientation program on newly recruited faculty is interrelated to future students demands. Orientation program is used to decide the education steps of the institution, such that the education system improvement. This resource, person analyses the working of head of the department in electrical and electronics from sri vasavi engineering college condition is found when connected capacitors should be shed, and the coordination between APFC, solar inverter reactive power control and solar inverter active power curtailment are examined to manage the high voltage rise problem. The basic idea For Power factor correction of inductive circuits we have to connect a capacitor in parallel with the device which has a low power factor. One of the traditional methods for power factor correction is static type compensation in which static type capacitors are used for power factor correction. However, in this case, care should be taken when applying power factor correction star/delta type control so that the capacitors should not be subjected to rapid on-off conditions. Otherwise, back-to-back capacitor bank switching is usually associated with large inrush current and it may damage the equipment connected to the system.

Program Outcome:

PO4: The faculty was able to apply design and development of modern education system.

PO5: The faculty was able to understand the usage of modern methods of teaching

Date: 15-11-2019.

CIRCULAR

All the IQAC Committee members are hereby informed that a meeting will be convened on 16-11-2019 at 11:00AM in principal chamber to discuss the following agenda:

I. Agenda for Department Activities

1. To ratify the resolutions of the previous meeting.
2. UG - Time Tables for the upcoming even semester of II, III & IV B.Tech.
3. Review on Project work II M.Tech - III & IV Sem.
4. Syllabus coverage for I M.Tech - I Sem and Discussion on ICT facilities.
5. Effectiveness of Remedial classes

II. Agenda for Research Activities

6. Conduction of Workshop/Training/Seminar/Guest Lecture/Hackathon etc., to promote research culture.
7. Publications of Papers (UGC/University Listed Journals).

III. Meeting Agenda for Centre for Counselling and Guidance

8. Absentees Trend and Action Taken
9. Review on weekly test and Project based assignments.
10. Discipline Related Issues
11. Student's Grievances
12. Promotion of Students for Higher Education

IV. Meeting Agenda for Centre for Training and Placement

13. Placement Reports (Campus Placements)
14. Field Projects/Internships/Industrial Visits
15. Placement Training Programmes (UG/PG)

IV. Others

16. Discussion on NSS Unit
17. Discussion on NAAC
18. Discussion on administrative and financial management
19. Any other point with the permission of the chair.

All the Members are requested to attend the meeting.

REPORT

“ONE WEEK INDUCTION PROGRAMME FOR NEW JOINED STUDENTS”

**Organized by
DNR CET**

Dates: 08-08-2019 to 14-08-2019

Submitted by : G.Moses

Resource Person : Ramesh.K

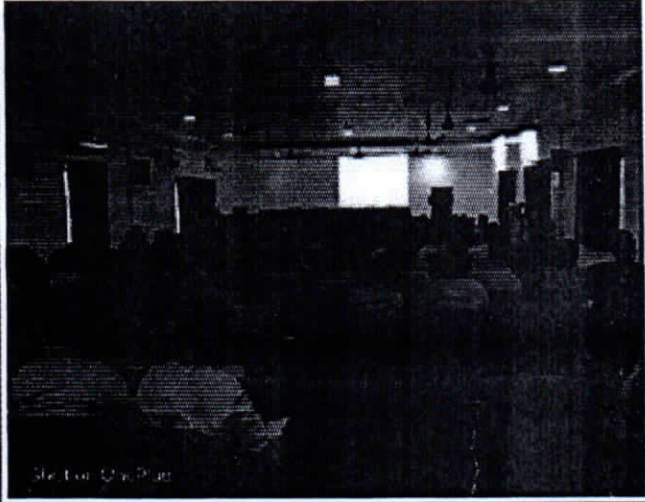

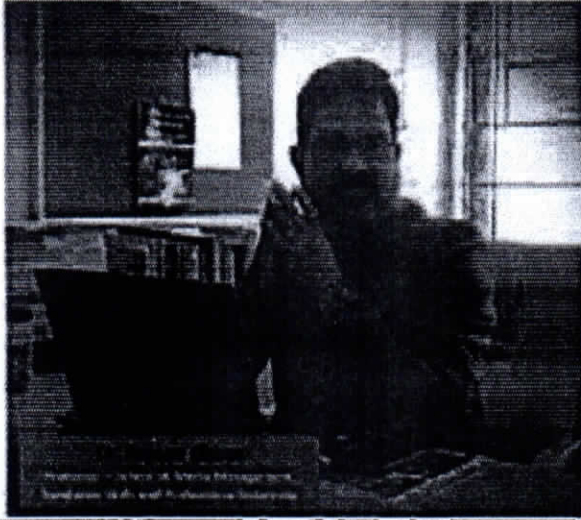

Motivational Speaker

The session was started at 9.30 AM. The program was initiated by Dr.U.Ranga Raju, Principal,Dnrcet. The resource person Ramesh.K was introduced by Mr.V.Praveen, Assistant. Prof., Dept. of BS&H.

Dr. **U.Rangaraju**, Principal, DNR CET welcomed all the newly joined students to the first day of Student Induction Programme (SIP). He gave the overall picture of SIP by using a detailed power point presentation. Moreover, he explained the importance of the Induction Programme and the objectives and outcomes of this course to the students. He gave the week schedule of the programme along with the list of famous personalities invited on this occasion. Further, he also added how each student is going to get benefited by this event and how these events will make the students ready for Engineering education.

Finally the speaker concluded that the innovative teaching and learning methods in the class room provides the new way to train the skills of students also said these methods helps teachers to adopt new method technology into the classroom and also said use multimedia to modify the contents of the material. It will help the teacher to represent the lessons in a more meaningful way.

The prominent speaker also focused and addressed the different Innovative Learning Methods like Crossover Learning, Learning through Argumentation, Incidental Learning, Learning by Doing Science (with remote labs),and Embodied Learning.
