Electrical & Electronics Engineering

## Report

**Electrical Estimation and Energy Auditing**  
**Organized by**  
**Department of Electrical and Electronics Engineering**  
**Date: 06<sup>th</sup> NOV 2023**

**Submitted by:** Mr.G. Jaya prasad, Assistant Professor. Dept. of EEE

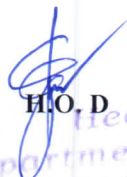

**Resource Person:** Mr.R. Gopala Krishnan, AP/EEE, KNCE,

The session was started at 10 AM. The lecture was initiated by Dr. KBVSR Subrahmanyam, HOD-EEE Department. The resource person Mr.R.Gopala Krishnan was introduced by Mr.G. Jaya prasad, Assistant. Prof., Dept. of EEE. The Intersection of Electrical Estimation and Energy Auditing Electrical estimation and energy auditing are closely related. Accurate electrical estimation can help identify potential energy-saving opportunities during the design phase. Energy auditing can inform the electrical estimation process by providing insights into energy consumption patterns and potential areas for optimization. By effectively combining these two disciplines, engineers and technicians can design and implement energy-efficient electrical systems that reduce operational costs and environmental impact
