1 **Introduction**

Internship is an integral part of the academic curricula. Its satisfactory completion is a mandatory requirement for the degree to be awarded by the College. Further, considering the curriculum structure approved by the college, multiple internships modes are possible, and are assigned academic credits within the curricula. The general structure of the internship requires the students to undertake an immersive assignment within the assigned organizations for a limited period. The internship offers the students an opportunity to gain hands-on industrial or organizational exposure; to integrate the knowledge and skills acquired through the coursework; interact with professionals and other interns; and to improve their presentation, writing, and communication skills. Internship often acts as a gateway for final placement for many students.

The internship will benefit students by getting real time industry experience and exposure, exploring the career opportunities, add values, skills, and experience to their CV and learn company culture.

2 **Objectives**

Internships are educational and career development opportunities, providing practical experience in a field or discipline. They are structured, short-term, supervised placements often focused around particular tasks or projects with defined timescales. An internship may be compensated, non-compensated or some time may be paid. The internship has to be meaningful and mutually beneficial to the intern and the organization.

Following are the intended objectives:

- To expose the students to industrial environment (viz. various materials, processes, products and their applications along with relevant aspects of quality control which cannot be simulated in the classroom) for application of existing engineering knowledge in industrial situations
- To provide possible opportunities to learn and sharpen the real time technical and managerial skills required for professional career
- Understand the social, environmental, economic and administrative considerations that influence the working environment [PO 6, 7]
- To expose students to the engineer's responsibilities and ethics [PO 8]

- To get acquainted with the working styles of industries at different hierarchy and learn to work in a team [PO 9]
- To gain experience in all types of professional communications (viz. preinternship applications, during internships people skills and documentation skills and post internship reports/projects writing skills) [PO 10]
- To demonstrate the impact of the internship on their lifelong learning and professional development [PO 12]
- To provide the linkages of future job/research opportunities to students in the organization [PO 12]

Mode of Execution

Internship may be done through following verticals through offline /online mode

- I. Full time Industry Internship cum project (4to 6 months)
- II. Full time research internship at research organization/ Indian University/ Foreign University (4 to 6 months)
- III. Short duration (2 to 3 months) internship in industry with in house project
- IV. Internship accounted through incubation centre (Project Prototype through entrepreneur development and start-up)

Students may be allowed to change mode of execution in certain unavoidable circumstances. Department head shall take decision for change of mode on application by student with a valid reason with due permission of the director. List of such a students shall be submitted to the academic council for the information.

In certain specific cases wherein student is not able to register for internship through any of the above four modes, he/she shall apply to the director through Dean Corporate Relations(CR) giving specific reason to arrange for alternate mode.

I. Full time Industry Internship cum project (4 to 6 months)

Under this category, Execution methodology expects that students should work with respective industrial domains of Engineering. Students will be working on a problem identified and assigned by industry. This Problem will be treated as Problem statement of Academic Project for 7th and 8th semester. Departmental faculty will work as a guide/supervisor in coordination with industry mentor to arrive at a feasible solution to problem assigned by industry within 7th and 8th semester of Engineering curriculum.

For this activity, time spent by student for collaborating with industry either in

discussions (preapproved with prior appointments) OR Joining activity at location of industry OR periodical visits related to data collection will be treated as Industrial Internship activity. In this category no special provision is made to define specific period of 8th semester dedicated for Internship. However, project guide and industry mentor to prepare a mutual schedule of student interaction with industry throughout the project duration. This schedule to be strictly followed as a part of assessment mechanism. Table 1.1 represent the flow of activity to be followed under this category.

Table 1.1 Steps and timeline to be followed as a guideline for category I

Step.	Description of Activity	Responsibility	Timeline
No.			
1	Identification of industrial Problem for Project	Faculty /Students	Vacation between 6 th and 7 th semester
1.1	If faculty identify problem then necessary communication with Industry mentor and identify group of students/ single student	faculty	Vacation between 6 th and 7 th semester
1.2	If student identify problem then necessary communication with domain expert faculty and then step 1.1 follows	Student	Vacation between 6 th and 7 th semester
2.	Joint letter of understanding between Institute and Industry	Faculty and Industry Mentor	At 1 st week of 7 th semester
3	Final Objective, methodology and schedule of interaction presentation in front of project monitoring committee at department.	Students, Faculty and departmental Internship Coordinator	At 3rd week of 7 th semester
4	Students to start adhering to schedule of interaction with necessary weekly reporting during Project hours of academic schedule*	Students	Throughout the 7 th and 8 th semester as per predefined schedule
5	Changes in schedule and work methodology to be agreed and signed off mutually between faculty and industry mentor.	Students, Faculty and Industry mentor	Special circumstances during execution
6	Interim Progress report and presentation to project Monitoring committee	Students, Faculty, Departmental Internship Coordinator	Within last week of 7 th semester

7	Project will continue during vacation at Industry location for	Students, Faculty and	During vacations between 7 th and 8 th
	Minimum 1 week and necessary Project offs are allowed with prior	Industry mentor	semester
	permission on paper	mentor	
8	Project and Industrial internship will resume as per guidelines 4 and 5		8th semester
9	Final report and presentation to Project Monitoring committee	Students, Faculty, Departmental Internship Coordinator	Within Last week of 8 th semester

Students and faculties to maintain all documentary records as per monitoring, assessment protocol of Internship policy documents

Category II: Full time research internship at research organization/ Indian University/ Foreign University (4 to 6 months)

Under This Category, research project undertaken by research organisation Or Internship Opportunities available at Organisations recommended by AICTE in Internship Policy at India or abroad will be executed by students. Students need to adhere to guidelines set by respective organisation for conduct of research activity during span of project.

Faculty mentor from respective department will be monitoring student's progress periodically.

Table 1.2 Steps and timeline to be followed as a guideline for category II

Step.	Description of Activity	Responsibility	Timeline
No.			
1	Advertisements issued by	Faculty /Students	Prevailing period of
	research organisations for		advertisement in 6 th
	research activity or Internship		and 7 th semester
	for UG students		
2.	Scrutiny of Students and	Faculty and	Before last date of

	Monitoring committee	Internship	
		Coordinator	
7	Final report and presentation	Students, Faculty,	Within Last week of
	to Project Monitoring	Departmental	8 th semester
	committee	Internship	
		Coordinator	

If Research/ Internship tenure is more than 6 months/ spanned between last academic year of B. tech and students are required to stay at location allotted by Research organisation then student should appear for Institute examination with prior permissions taken from Research/ Internship Organisation during 7th and 8th semester as per documentation signed by Students to adhere to protocol of academics defined for prevailing circumstances.

Category III: Short duration (2 to 3 months) internship in industry with in house project

Under This category, Academic Project and Internship will be treated as separate entity. Students will perform academic project issued by departmental faculties. Tenure of this project will be for 7th and 8th semester. Internship activity will be commenced from ESE of 7th semester for minimum period of 3 months. This internship should be preferably aligned with Project activities and domain area.

Table 1.3 Steps and timeline to be followed as a guideline for category III

Assessment of internship will be done as per Institute Internship Policy.

Category IV: Internship accounted through incubation centre (Project Prototype through entrepreneur development and start-up)

Mode of execution under this category is governed by rules and regulations of ED cell.

4 **Internship Duration**

The internship is mandatory as a part of the curriculum. Students will not graduate unless they complete the internship as prescribed. The structure and durations of the Internship may vary, it is normal for a minimum duration to be at least two months during the final semester of B. Tech. program. Typically, internships will start in second semester of final year around January every year and the durations range between two to six months. In case the duration of an internship needs to be extended, it would be necessary for the student to obtain a prior written approval from the college.

5 Roles and Responsibilities

The organizational structure of Training and placement cell for internship is as follows:

Training and Placement Officer of the college will be supported by a Departmental

internship coordinator for Training and Placement Activities and Faculty Supervisors/ Mentors designated/assigned by the Head of the concerned Department. Each department will have a student's committee comprising of 1-3 students from each class for supporting Training and Placement activities headed by Student Coordinator. Departmental coordinator and Faculty Supervisors/Mentors will be nominated at the start of the Academic year for each batch. However, student coordinator being the representative of students will be selected by the students with the help of Training and Placement Officer. Faculty Mentor/Supervisors have to play active role during the internship and minimum 4 students are to be supervised by each faculty mentor.

6 Internship Execution Procedure

The T&P cell will arrange internship for students in industries/organization after seventh semester or as per AICTE/ DTE/ affiliating University guidelines.

The following general procedure shall be adopted for execution of internship:

- **Step 1:** Request Letter/ Email from the office of Training & Placement cell of the institute shall be sent to the industry to allot different slots of 2-6 months during 8th semester as internship periods for the students. Students request letter/profile/ interest areas will be submitted to industries for their willingness for providing the training. (Sample attached)
- Step 2: Industry will confirm the training slots and the number of seats allocated for internships via Confirmation Letter/ Email. The industry will be requested to allot mentor/supervisor for communication between supervisor and students. In case the students arrange the training themselves the confirmation letter will be submitted by the students to the office of the Training & Placement through concerned department. Based on the number of slots agreed by the Industry, Dean Corporate Relationswill allocate the students to the concerned industry. In addition, the internship slots may be conveyed through Telephonic or Written Communication (by Fax, Email, etc.) by the Dean (Corporate Relations) or other members of the T&P cell / Faculty members who are particularly looking after the Internship of the students.
- Step 3: Students on joining Training at the concerned Industry / Organization, will submit the Joining Report/Letters / Email to the Dean Corporate Relationsand Head of Department.
- Step 4: Students will undergo internship at the concerned Industry /

Organization. The mentor/supervisor shall evaluate the performance of students once/twice by visitingthe Industry/Organization or through video conferencing and Evaluation Report of the students will be submitted to the Head of Department through Internship Coordinator. Head of the Department shall forward these report to theDean Corporate Relations with the consent of Industry persons/Trainers.(Sample Attached)

- **Step 5:** Students will submit internship report in the format provided by the institute after completion of internship along with certificate obtained from the industry.
- **Step 6:** List of students who have completed their internship successfully will be issued by Dean Corporate Relations to the office of concern department.

7 Guidelines for students

- 1. All the students need to go for internship for minimum of 2 months.
- 2. Students can take mini projects, assignments, case studies by discussing it with concerned authority from industry and can work on it during internship.
- 3. All students should compulsorily follow the rules and regulations as laid by industry.
- 4. Every student should take prior permissions from concerned industrial authority if they want to use any drawings, photographs or any other document from industry.
- 5. Student should follow all ethical practices and SOP of industry.
- 6. Students have to take necessary health and safety precautions as laid by the industry.
- 7. Student should contact his /her academic guide from college on weekly basis to communicate the progress.
- 8. Each student has to prepare internship report in consultation with the academic guide.

General Internships Recommendations

 An internship is a great opportunity to learn in industrial environment without being an employee of the company. Students are advised to set their goals prior to starting their internship and focus on completing them during the internship.

- If a student joins a very large organization to do an internship, he must use the opportunity to learn about the activities performed in the various departments by doing short stints in each of them. This experience will help provide him the big-picture in better understanding the career prospects in relation to his ambitions.
- Attitude and mind-set play a great role in the learning process. Do tackle all tasks given with enthusiasm and positive attitude.
- Interns must avoid negativity and never ignore a chance offered to them to learn more about a concept, technology, industry or company.
- Interns must be inquisitive and try to gain maximum knowledge and exposure.
- Interns shall identify a good mentor within the company and take initiative to execute new projects where one can make a difference to the company.
- Interns should enjoy during the internship and leave with tangible accomplishments.
- The intern will maintain a regular internship schedule determined by the Intern and his/her Project Head.
- Interns shall view an internship as a bridge between college and the workplace. Do use for their full advantage while undergoing internship: The intern must demonstrate honesty, punctuality and a willingness to learn during the internship program.
- The intern will obey the policies, rules and regulations of the Company and comply with the Company's business practices and procedures.

Student's Diary/ Weekly Log

The main purpose of writing weekly diary is to cultivate the habit of documenting and to encourage the students to search for details. It develops the students' thought process and reasoning abilities. The students should record in the weekly training diary the observations, impressions, information gathered and suggestions given, if any. It should contain the sketches & drawings related to the observations made by the students. The weekly training diary should be signed after every week by the supervisor/ in charge of the section where the student has been working. The diary should also be shown to the Faculty Mentor visiting the industry from time to time and got ratified on the day of his visit. Student's Diary and Internship Report should be submitted by the students along with attendance record and an evaluation sheet

duly signed and stamped by the industry to the Institute immediately after the completion of the training. It will be evaluated on the basis of the following criteria:

- Regularity in maintenance of the diary.
- Adequacy & quality of information recorded.
- Drawings, sketches and data recorded.
- Thought process and recording techniques used.
- Organization of the information.

Internship Report

After completion of Internship, the student should prepare a comprehensive report to indicate what he has observed and learnt in the training period. The student may contact Industrial Supervisor/ Faculty Mentor/Dean CR for assigning special topics and problems and should prepare the final report on the assigned topics. Daily diary will also help to a great extent in writing the industrial report since much of the information has already been incorporated by the student into the daily diary. The training report should be signed by the Internship Supervisor, Dean CR and Faculty Mentor. The Internship report will be evaluated on the basis of following criteria:

- i. Originality.
- ii. Adequacy and purposeful write-up.
- iii. Organization, format, drawings, sketches, style, language etc.
- iv. Variety and relevance of learning experience.
- v. Practical applications, relationships with basic theory and concepts taught in the course.

8 Health, Safety and Welfare of Students

T & P cell will ensure insurance of all the students when anyintern is undergoing training in a specific notified area such as mining industry in relation to the health and safety of the trainees as if they are persons employed in the same.

Also considering guidelines of the industry, T & P cell will instruct students to get insurance.

9 **Academic Credentials**

Total 2 credits for the internship in 8th semester.

10 **Monitoring & Evaluation**

Monitoring Phase

Monitoring at the Industry Side -

- 1. Internship schedule (for stipulated time of 2-6 months) may be prepared and a copy of the same may be sent to departmental project guide/faculty mentor/supervisor.
- 2. Each student is required to keep Internship diary/ notebook, update weekly and get it checked by industrial mentor/supervisor.
- 3. Each student is required to prepare a monthly report, presentation and get it verified by industrial mentor/supervisor.
- 4. The formal entry (the start procedures) and exit (the internship closure procedures) are required to be followed by the industry.
- 5. The early termination of the internship (earlier than the stipulated time period) or the extension of the stipulated tenure is required to be discussed from time to time with departmental project guide/faculty mentor/supervisor. (This in turn will be notified and discussed with departmental internship coordinator and head.)

Monitoring at the Institute Side –

- 1. Each student is required to send a monthly report, presentation and get it verified by departmental project guide/faculty mentor/supervisor.
- 2. Each student is required to present monthly activities online/offline to departmental project guide/faculty mentor/supervisor.
- 3. Each student is required to present the whole activities of internship online/offline to departmental project guide/faculty mentor/supervisor at the end of the internship.
- 4. Faculty Mentor/ Internship coordinator/ HoD of the department or Dean (Corporate Relations) will make a surprise visit to the internship site to check the student's presence physically (if the student is found absent without prior intimation to the industry mentor, entire training will be cancelled/ student is liable for the punishment)
- 5. Students are eligible to avail 1-day leave in every 4 weeks training with permission of the respective industry during the internship period apart from holidays and weekly offs. Students should inform industry mentor and Faculty Mentor, Internship coordinator, HoD, Dean CR, at least one day prior to availing leave by email.

11. Evaluation of intenships/Intenship cum project:

Summer Internships: Two summer internships either onsite or virtual each with a minimum of 08 weeks duration, done at the end of second and third years, respectively are mandatory. It shall be completed in collaboration with local industries, Govt. Organizations, construction agencies, Power projects, software MNCs or any industries in the areas of concerned specialization of the Undergraduate program. One of the two summer internships at the end of second year (Community Service Project) shall be society oriented and shall be completed in collaboration with government organizations/NGOs & others. The other internship at the end of third year is Industry Internship and shall be completed in collaboration with Industries. The student shall register for the internship as per course structure after commencement of academic year. The guidelines issued by the APSCHE / University shall be followed for carrying out and evaluation of Community Service Project and Industry Internship. Evaluation of the summer internships shall be through the departmental committee. A student will be required to submit a summer internship report to the concerned department and appear for an oral presentation before the departmental committee comprising of Head of the Department, supervisor of the internship and a senior faculty member of the department. A certificate of successful completion from industry shall be included in the report. The report and the oral presentation shall carry 50% weightage each. It shall be evaluated for 50 external marks. There shall be no internal marks for Summer Internship. A student shall secure minimum 40% of

marks for successful completion. In case, if a student fails, he/she shall reappear as and when semester supplementary examinations are conducted by the University.

Full Semester Internship and Project work: In the final semester, the student should mandatorily register and undergo internship (onsite/virtual) and in parallel he/she should work on a project with well-defined objectives. At the end of the semester the candidate shall submit an internship completion certificate and a project report. A student shall also be permitted to submit project report on the work carried out during the internship. The project report shall be evaluated with an external examiner. The total marks for project work 200 marks and distribution shall be 60 marks for internal and 140 marks for external evaluation. The supervisor assesses the student for 30 marks (Report: 15 marks, Seminar: 15 marks). At the end of the semester, all projects shall be showcased at the department for the benefit of all students and staff and the same is to be evaluated by the departmental Project Review Committee consisting of supervisor, a senior faculty and HOD for 30 marks. The external evaluation of Project Work is a Viva-Voce Examination conducted in the presence of internal examiner and external examiner appointed by the University and is evaluated for 140 marks. The college shall facilitate and monitor the student internship programs. Completion of internships is mandatory, if any student fails to complete internship, he/she will not be eligible for the award of degree. In such cases, the student shall repeat and complete the internship.

Student Relieving Letter Format

Subject: Relieving letter of student.
Dear Sir, Kindly refer your letter/e-mail datedon the above cited subject. As permitted by your good self the following students will undergo Industrial Internship in your esteemed organization under your sole guidance & directions:

Sr. No.	Name of Student	Branch

This training being an essential part of the curriculum, the following guidelines have been prescribed in the curriculum for the training. You are therefore, requested to please issue following guidelines to the concerned manager/Industrial Supervisor.

- 1. Internship schedule may be prepared and a copy of the same may be sent to us.
- 2. Each student is required to prepare Internship diary and report.
- 3. Kindly check the Internship diary of the student daily.
- 4. Issue instruction regarding working hours during training and maintenance of the attendance record.

Further, you are requested to evaluate the student's performance on the basis of grading i.e. Excellent, Very Good, Satisfactory and Non Satisfactory on the below mentioned factors. The performance report may please be forwarded to the undersigned on completion of training in sealed envelope.

Sr. No.	Name of Student	Evaluation Ranking
1	Attendance and general behaviour	
2	Relation with workers and supervisors	
3	Initiative and efforts in learning	
4	Knowledge and skills improvement	
5	Contribution to the organization	

Your efforts in this regard will positively enhance knowledge and practical skills of the students, your cooperation will be highly appreciated and we shall feel obliged.

The students will abide by the rules and regulation of the organization and will maintain a proper discipline with keen interest during their Internship. The students will report to you on dated. along with a copy of this letter.

Yours sincerely,

To,

Dean (Alumni and Corporate Relations)

This experience has:	Strongly agree	Agree	No opinion	Disagree	Strongly disagree
Helped me learn to handle			•		
responsibility and use my					
time wisely					
Helped me discover new					
aspects of myself that I					
didn't know existed before					
Helped me develop new					
interests and abilities					
Helped me clarify my					
career goals					
Provided me with contacts					
which may lead to future					
employment					
Allowed me to acquire					
information and/ or use					
equipment not available at					
my Institute					

In the Institute internship program, faculty members are expected to be mentors for students. Do you feel that your faculty coordinator served such a function? Why or why not?

How well were you able to accomplish the initial goals, tasks and new skills that were set down in your learning contract? In what ways were you able to take a new direction or expand beyond your contract? Why were some goals not accomplished adequately?

In what areas did you most develop and improve?

What has been the most significant accomplishment or satisfying moment of your internship?

What did you dislike about the internship?

Considering your overall experience, how would you rate this internship? (Tick one).

(Satisfactory/ Good/ Excellent)

Give suggestions as to how your internship experience could have been improved. (Could you have handled added responsibility? Would you have liked more discussions with your professor concerning your internship? Was closer supervision needed? Was more of an orientation required?)
